

DePuy Synthes

PART OF THE *Johnson & Johnson* FAMILY OF COMPANIES

July 2020

Dear Valued Partners,

We recognize that COVID-19 has created an unsettling time around the globe. For health care workers and patients, one of the biggest challenges is understanding the path forward as elective surgeries resume.

As a leader in the health care space, DePuy Synthes – together with the Johnson & Johnson Family of Companies – will never stop assisting health care providers and patients in their efforts to deliver and seek health care in a meaningful way.

To that end, we are pleased to provide a toolkit to help you communicate with your patients as they navigate potential concerns related to elective surgery. The toolkit contains a number of resources that you and your patients may find helpful as you consider their treatment options.

In the coming months, I encourage you to visit www.depuysynthes.com as we will continue updating our toolkit resources. As a company that has cared for the health and safety of health care workers and patients for more than 130 years, Johnson & Johnson was built for times like these and will continue our efforts to defeat COVID-19.

We are in this together,

Tim Czartoski
President North America
DePuy Synthes
