Muscle Stapling

An alternative for Muscle Division

Contour® Curved Cutter Stapler

Product Overview
The CONTOUR® Curved Cutter Stapler is a multi-fire, single patient use device with a curved head that cuts and staples. The large aperture jaw delivers four staggered rows of titanium staples, two on each side of a 40mm cut line.

Manual retaining pin captures targeted tissue prior to firing. The CONTOUR® Stapler is ergonomically designed for one handed placement, closure and firing and offers an efficient option for creating a clean hemostatic transection.

Indications for Use
CONTOUR® is intended for transection, resection, and/or creation of anastomoses and has application in multiple open or minimally invasive general (gastrointestinal and skeletal muscle stapling), gynecologic, urologic, and thoracic surgical procedures.
Key Features

**Simultaneous stapling and cutting** - Delivers 4 curvilinear rows of staples with a single cut between

**Breakthrough washer** - Provides audible and tactile feedback every firing and a new stainless steel anvil with every cartridge

**Reloadable cartridges** - A single device may be fired up to 6 times in a single procedure

**Manual pin placement option** - Captures intended tissue before closing device

**Intermediate locking position** - Allows tissue manipulation and inspection before closing device
