CONTOUR® can. Reload after reload.

CONTOUR® Curved Cutter Stapler

**Reloadable for multiple firings**
- Designed to be reloaded when needed to complete a single transection with multiple firings
- Multiple firings may be used to prevent overloading of the tissue in the jaws of the device
- Knife extends to the retaining pin and staple line extends beyond the pin, supporting multiple firings
- Devices are reloadable and may be fired up to 6 times in a single procedure

**Designed for deep pelvis access**
- Unique curved head designed to cut and staple deep in the pelvis
- Parallel closure and tissue retention pin designed to transect the rectum in a single perpendicular firing
- CONTOUR® allows placement of a 40mm cut line in the width of a 30mm space

ETHICON
PART OF THE JOHNSON & JOHNSON FAMILY OF COMPANIES
Shaping the future of surgery
Product overview

- Four curvilinear rows of staples with a single cut between
- Allows low pelvic access without handle obstruction over existing linear staplers
- Tissue retaining pin with manual closure option holds tissue in place during compression and firing
- Parallel closure for controlled compression and less tissue movement
- Breakthrough washer provides audible and tactile feedback every firing
