PROXIMATE® PPH Hemorrhoidal Circular Stapler Set

Unique staple technology in one device
- Adjustable staple height technology accommodates compressed tissue thickness from 0.75mm to 1.5mm
- Controlled tissue compression allows the surgeon to control the compression applied to the tissue
- Device may be adjusted according to individual tissue thickness and compressibility

Designed for security and ease of use
- Quick-close adjusting knob allows for rapid instrument open and close while maintaining controlled tissue compression
- Suture threader ports allow for easy retrieval of suture through instrument housing
- Clear purse-string suture anoscope provides visualization of the anatomy for precise placement of the purse-string sutures
- Fixed anvil to reduce risk of accidental detachment

*Superior is defined as faster recovery time and less pain for stapled hemorrhoidopexy versus conventional hemorrhoidectomy.

ETHICON
PART OF THE JOHNSON & JOHNSON FAMILY OF COMPANIES
