Product Literature: HARMONIC SYNERGY® Combination Hook Blade
HARMONIC SYNERGY® Combination Hook Blade

The HARMONIC SYNERGY® Combination Hook Blade
HARMONIC® Technology uses ultrasonic vibration to simultaneously cut and coagulate soft tissue. This minimizes thermal tissue damage, may eliminate the need for electrocautery and may provide important recovery advantages to your patients.

Precise: Minimal lateral thermal tissue damage for safer dissection near vital structures
Reliable: Seals and divides vessels ≤ 2mm, as well as lymphatics
Versatile: Cuts, coagulates and dissects, reducing instrument exchanges
HARMONIC SYNERGY® Combination Hook Blade

Product facts

Procedure Applications
Procedure applications include plastic surgery, exposure to orthopedic structures (such as spine and joint space), ENT and breast procedures, when bleeding control and minimal thermal injury are desired.

Plastic
Abdominoplasty, breast reduction

ENT
