Designed to deliver reliable performance on an easy to use platform

**ENDOPATH® ETS-Flex 45**

**Compression before firing**
- Uniform tissue compression across the entire staple line in a range of tissue thicknesses
- Designed to pre-compress tissue for consistent staple formation

**Ease of use**
- Designed to clamp, staple, cut and release all with one hand
- Designed to fire in one stroke for an efficient procedural approach
- Designed with 5 angle increments of articulation to each side enabling a more precise approach
