

MENTORPROMISE AND MENTORPROMISE ENHANCED PROTECTION PLAN FOR SALINE-FILLED BREAST IMPLANTS

This document describes the Mentor Worldwide LLC (“Mentor”) Product Replacement Policy, also known as the MENTORPromise Protection Plan (“Replacement Policy”), and the for-purchase MENTORPromise Enhanced Protection Plan (“Enhanced Plan”), for all styles of MENTOR Saline-Filled Breast Implants implanted in the United States (including Puerto Rico) on or after May 1, 2017.

The Replacement Policy applies automatically to all MENTOR Saline-Filled Breast Implants acquired directly from Mentor and implanted in the United States (including Puerto Rico) as of May 1, 2017. Patients implanted on or after May 01, 2017 are eligible to purchase for \$200 the Enhanced Plan. Eligible persons choosing not to purchase the Enhanced Plan remain eligible for the Replacement Policy.

Saline-Filled Breast Implants are associated with known risks, including deflation.. The surgeon, as learned intermediary, is responsible for providing the patient with all appropriate risk information before surgery. Mentor makes available to all surgeons and patients a copy of its material entitled “Saline-Filled Breast Implant Surgery: Making an Informed Decision”. Copies are available through the Mentor website at www.mentorwwllc.com. These materials are not intended to, and cannot, take the place of a full and frank discussion between surgeon and patient.

Mentor’s Product Insert Data Sheet (PIDS) for MENTOR® Saline-Filled Breast Implants state the implants are single use devices. Damage that occurs during or due to a re-operative procedure is not covered under any of the Replacement Policy or the Enhanced Plan. MENTOR® Saline-Filled Breast Implants are defined as part of Mentor’s portfolio of Smooth Round Saline, Siltex® Round Saline, Smooth Round Spectrum®, Siltex® Round Spectrum®, and Siltex® Contour Profile® Saline (moderate and high profile and Spectrum®).

1. The Replacement Policy:

In the event of an unexpected qualifying deflation of a MENTOR Saline-filled Breast Implant, Mentor will replace the product, free of charge, for the lifetime of the patient. Implantation of the MENTOR Saline-filled Breast Implants, as well as any subsequent procedures, must be in accordance with current MENTOR product literature and accepted plastic surgical procedures by appropriately qualified licensed physicians for product to qualify for replacement under the MENTOR Product Replacement Policy. Should a more expensive product be requested by the physician, Mentor will invoice the ordering customer for the list price difference between the deflated or ruptured product and the requested replacement product. The explanted deflated product must be returned to the Mentor Product Evaluation Department within 60 days of its explant in order to qualify for the free of charge replacement product. In the event that the explanted product is not returned to the Mentor Product Evaluation Department within 60 days of its explantation, the ordering customer will be invoiced for the price of the replacement product.

At the surgeon's request, MENTOR will also provide a replacement of a MENTOR® Saline-Filled Breast Implant to use to replace the contralateral implant, provided that the contralateral breast implant is a MENTOR product. There will be no charge for this courtesy except as outlined in this policy .

Qualifying replacement product (limit 2) will be sent without shipping charges if the order is received in the MENTOR Product Evaluation Department at least three business days prior to scheduled delivery date; otherwise, freight charges will be invoiced to the ordering customer. All "backup" replacement product requested will be invoiced at customer's established pricing and shipping terms and will follow MENTOR's standard return policy.

Mentor will neither provide nor pay for a replacement with a non-MENTOR product under the terms of this Replacement Policy, nor in any event provide money for or in lieu of a MENTOR replacement product. Any replacement MENTOR Saline-filled Breast Implant automatically includes new coverage under the Replacement Policy.

Limitations on the Replacement Policy:

If Mentor's obligation to provide a replacement product under the Replacement Policy is prevented, restricted, or interfered with by reason of fire, flood, earthquake, explosion, or other casualty or accident, strikes or labor disputes, inability to procure supplies or power, war or other violence, any law, order, proclamation, regulation, ordinance, demand, or requirement of any government agency, or any other act or condition whatsoever beyond the reasonable control of Mentor, the performance of that obligation shall be excused without penalty. For purposes of this provision, excuse of performance shall mean that Mentor is neither obligated to provide nor pay for a replacement product, regardless of the product's source. Despite the excuse of MENTOR's obligation to provide a replacement product under this provision, Mentor shall continue to perform its obligation to provide financial assistance for operating room, anesthesia, and surgical fee costs to the extent described under the Basic Plan and the Enhanced Plan.
